Future of Norse Grounds

January 31 2020

Dear Norse Grounds customer,

Although you may have seen coverage in the EDP about our plans to reshape our grounds division for **financial reasons**, it's important to bear in mind these are only **proposals** at this stage and **no** final decision has been taken.

It's very much business as usual for **all** our customers until April. However, we are currently meeting individually with staff affected by the proposed closures of four depots (Gressenhall, King's Lynn, Attleborough and Aylsham) which are subject to the outcome of a four week consultation which began on January 22.

We intend to retain a future presence in both Norwich and Great Yarmouth..

We will be contacting all our **existing customers** once the consultation is finished and we have considered any alternative proposals put forward by staff.

We recognise this is an unsettling time for customers and staff alike, and accept some organisations might want now to be planning ahead for the future. We gratefully ask for people to **bear with us** for the time being while the consultation period continues.

We are compiling a list of customers who are interested in the outcome of the discussions in **February** and are happy to add you to that list if that is helpful.

Please contact Stuart Marbrook, our Head of Grounds, on 01362 869930 or email stuart.marbrook@ncsgrp.co.uk if you have any further questions and we will do our best to answer your concerns.
